Work Experience

Stream Companies.com – Interactive Media Designer **Dec. 2007–Nov. 2008**

Design blast emails utilizing Adobe Photoshop, Fireworks and Illustrator. Frequently use Dreamweaver to code monthly HTML blast emails and eNewsletters. Work closely with web design team on projects large and small. Apply ActionScript 2.0 in Flash to create headers and homepage navigation on web sites. Work with clients on a weekly basis to compile assets for projects.

Next Step 4 U.com -- Web Designer/ Photographic Editor/Photographer **Aug. 2007–Dec. 2007**

Develop websites using Dreamweaver, XHTML, CSS and JavaScript. Interfaced with clients to gain through understanding of their needs and to obtain an efficient user interface design. Created layout designs using Adobe Suite, primarily focused on effective task flow and user navigation. Responsible for editing, enhancing, and retouching photographs and graphic images, as well as implemented image optimization for web applications. Photograph products and indoor/outdoor architecture using digital SLR technology. Implement studio and location lighting.

360 Media Inc. -- West Chester, PA -- Production Manager/Photographer **June 2002–Dec. 2007**

National responsibility for the production and delivery of all client requests for virtual tours; organized and delegated tasks to office personnel. Utilized Dreamweaver and Flash with ActionScripting to maintain and update internal company website as well as client sites. Photographed 360 Virtual tours for client websites. Edited/enhanced photographs and optimization for web applications.

Contrast Photography -- Philadelphia, PA -- Photographer/Account Coordinator **April 2003-Sept 2003**

Photographed Sports and Action Photography on location; as well as shot Portraits utilizing studio lighting. Responsible for fulfilling orders, customer service, and organizing office files and equipment.
